### Chairman's Report

On behalf of the Board, Management, and employees, I am pleased to present BAT Zimbabwe's Special Purpose Financial Results for the year ended December 31, 2024. The Business delivered a resilient performance during the period under review, and its fundamentals remain

#### Operating environment and business overview

In 2024, the Business navigated a challenging operating environment, largely driven by the negative effects of commodity prices shocks, policy uncertainty, supply chain bottlenecks, and, hard currency shortages. Despite these challenges the Business successfully transitioned from the Zimbabwe Dollar (ZWL) to the Zimbabwe Gold (ZWG), and subsequently to the United States Dollar (USD), demonstrating resilience in the face of economic headwinds whilst driving business continuity. During the period in review, we simplified our Route to Consumer (RTC) model and thus leveraging excellence in commercial execution to drive revenue growth and partially cushion profitability from the impact of commodity prices volatility. Further, we transitioned from solely trading in the local currency to a multi-currency approach, reducing supply chain pressures and contributing towards delivering sustainable shareholder value.

### **Blocked funds**

The Reserve Bank of Zimbabwe (RBZ) approved and registered the Company's blocked funds amounting to USD16.3 million. This is in respect of outstanding amounts consistent with the blocked funds guidelines provided in the Exchange Control Directive RU28 dated 21 February 2019, Exchange Control Circular No. 8 of 24 July 2019. In 2021, The Treasury assumed the liability from RBZ

in relation to the blocked funds. The Treasury is currently working on the appropriate instruments to facilitate settlement of the registered blocked funds which were listed as approved blocked funds under Annex 1 of the Finance Act(no. 7) of 2021 (gazetted on 21 December 2021).

#### **Contributions to the Government Treasury**

BAT Zimbabwe continues to contribute to the economic development of the country through payment of various taxes to the Government treasury including; Excise Duty, Corporate Tax, Value Added Tax (VAT), Custom Duties, Pay As You Earn (PAYE) and Withholding Tax. The Company's contribution to the 7imbabwe Revenue Authority (ZIMRA) in 2024 decreased by 2% compared to prior year, predominantly due to unpredictable regulatory changes that impacted business

### Sustainability front and center

The BAT Group has refined its Sustainability Strategy and is seeking to take a leading role in tackling some of the biggest global sustainability challenges. The Strategy is underpinned by five impact areas, namely, Tobacco Harm Reduction, Climate, Nature, Circularity and Communities. The Strategy aims to do this by responsibly building A Smokeless World as well as reducing its use of natural resources and maintain climate goals as it transitions to A Better Tomorrow™. BAT Zimbabwe is aligned to the refined Group Sustainability Strategy which has been adapted to local realities and is striving to create a meaningful impact in the communities in which we operate

At our factory, our sustainability efforts are guided by both short-term and long-term strategies focused on improving energy efficiency and reducing environmental impact. We leverage

Integrated Work Systems (IWS) tools, such as daily direction setting, to prioritise and address operational losses. These efforts are essential for driving immediate improvements in our operations and ensuring continuous optimisation. In terms of energy management, we have implemented various initiatives to improve energy efficiency, reduce power consumption, and reduce emissions.

On the talent front, we continue to champion diversity and inclusion with key initiatives such driving the increased representation women and Persons with Disabilities (PWDs) across the business, as well as the introduction of an Apprenticeship Programme. Through the Apprenticeship Programme we aim to bridge the skills gap between tertiary education and practical industry needs, creating workplace-ready future

The Business is tracking at pace and has already scored a number of milestones including receiving Core certification by the Alliance for Water Stewardship (AWS) for our efforts in driving Good Water Governance (GWG) in our catchment area, maintaining our zero-waste to landfill status, increasing representation of women and PWDs across the Business, successfully implementing skills training initiatives for adult graduates, as well as supporting the health and safety of all our

Reflective of the above, the Board of Directors believes that BAT Zimbabwe is in a strong position to continue delivering sustained value for . shareholders.

## **Board resignations and appointments**

Company Secretary

Ms. Phyllis Farah Chenjera resigned from the position of Company Secretary effective 1 March 024. She was reassigned to a new role within BA1 Zimbabwe. The Board subsequently appointed Ms. Mirirai Apolonia Washaya as Acting Company Secretary effective 28 March 2024. She resigned from this role effective 1 March 2025, to pursue interests outside of the BAT Group

The Board of Directors thank Phyllis and Mirirai for their contribution to the success of the Business and wish them all the best in their future

In light of these changes, the Board is pleased to announce the appointment of Mr. Takudzwa Mashanda as Company Secretary effective 1 March 2025. Prior to joining the Company, he was Legal and Investment Counsel at Masawara Group Holding, and practiced with two leading corporate and commercial law firms in Zimbabwe being; Dube Manikai Hwacha Law Chambers and BeraMasamba Legal Practitioners, where he specialised in corporate law.

#### Alternate Non-Executive Director

The Board of Directors is pleased to announce the appointment of Mr. Crispin Ouma Achola effective 1 May 2025 as an Alternate Director to Mr. Philemon Kipkemoi who is currently serving as a Non-Executive Director on the Board, Crispin is the Cluster Director for BAT East & Southern Africa Markets (ESA) based in Nairobi, Kenya. Prior to rejoining BAT in 2021, Crispin worked for Kimberly-Clarke Corporation where he held the position of General Manager West, East & Central Africa (WECA) and Managing Director Nigeria, Prior to this, Crispin had worked with BAT from 1999 to 2017, during which time he held various senior roles, including Managing Director Mozambique, Cluster General Manager Mozambique, Zambia, Zimbabwe and Malawi and Managing Director Sudan. The Board welcomes Cris to the Board and looks forward to his contribution.

#### **Dividends**

As disclosed in Note 2.2, the Group changed its functional currency during the period. This resulted in hyperinflation-related accounting adjustments, including a monetary loss, which impacted reported profit. These adjustments are non-cash in nature and do not reflect a meterial change in the Group's underlying USD performance.

Reflective of our commitment to deliver sustained value for shareholders, the Board of Directors has recommended a final dividend of USD 0.20 per share for 2024. The dividend, subject to shareholder approval, will be payable net of Withholding Tax to shareholders on the register as at the close of business on 25 July 2025.

**Looking ahead** BAT Zimbabwe's Board and the Leadership Team remain focused and confident in the Company's ability to deliver long-term, sustained shareholder value, in line with our purpose to create **A Better** Tomorrow™. We remain optimistic of a positive future on the back of demonstrated solid fundamentals, a proven business strategy, an innovative product portfolio as well as the right people to accelerate the transformation of our

Lastly, I extend my gratitude and appreciation to my fellow Directors of the Board, the Leadership Team, employees, strategic partners, shareholders, and all other stakeholders for their contributions to our resilient performance in 2024

Lovemore T Manatsa Chairman

#### NOTES TO THE FINANCIAL RESULTS FOR THE YEAR ENDED 31 DECEMBER 2024

#### SUMMARY OF MATERIAL ACCOUNTING POLICIES

#### SPECIAL PURPOSE FINANCIAL STATEMENTS

The Reserve Bank of Zimbabwe (RBZ) through the Monetary Policy Statement (MPS) issued on 6 February 2025 mandated all entities to adopt a common presentation currency, ZWG, for reporting purposes, with effect from the pronouncement date, including for the 2024 audited Financial Statements. BAT Zimbabwe's functional and presentation currency is USD, however to comply with the MPS the Group has published these special purpose Financial Statements.

The principal accounting policies applied in the preparation of these special purpose Financial Statements are set out below.

#### 2.1 Basis of preparation

The financial results have been prepared as special purpose in line with Regulatory Note SECZ070325 issued by the Securities and Exchange Commission of Zimbabwe, they have been prepared under the assumption that BAT Zimbabwe operates on a going concern basis. These Financial Statements are based on the statutory records that are maintained under the historical cost and are a direct translation of the primary statements included in the general-purpose consolidated Financial Statements which are in USD. The exchange rate used to convert is the spot rate as at 31 December 2024 of USDI: ZWG25.80. Selected material notes have been included in these special purpose Financial Statements to align with the notes from the general-purpose press release statement.

The special purpose financial results have not been prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board and therefore reading the special purpose Financial Statements and the Auditor's Report thereon, is not a substitute for reading the audited general purpose consolidated Financial Statements and the auditor's report thereon. The USD Financial Statements comply with the requirements of IFRS® Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

The general purpose consolidated Financial Statements of the Group were approved by the Directors on 23 June 2025 and a qualified audit opinion was issued on the same day The qualification was in respect of non-compliance with International Accounting Standard 21, The Effects of Changes in Foreign Exchange Rates in the current and prior years, and IAS 8, Accounting policies, Changes in Accounting Estimates and Errors in respect of the accounting for foreign creditors registered as blocked funds as described in note 15. These are available for inspection at the Company's registered office.

The Group changed its functional currency from ZWG to USD on 1 August 2024. Refer to note 2.4 for the detail on the functional currency assessment that the Group performed.

These Financial Statements were authorised for issue by the Group's Board of Directors on 23 June 2025.

## 2.2 Change in Functional currency

Following the enactment of Statutory Instrument (SI) 185 of 2020 on 24 July 2020, the Group operations witnessed a gradual increase in the use of foreign currency across the business. Subsequently, in June 2022, the government entrenched the multi-currency system into law until 31 December 2025 through Statutory Instrument 118A of 2022. Moreover, on 27 October 2023, Statutory Instrument 218 of 2023 (SI 218/23) extended the settlement of transactions in foreign currency until 31 December 2030, assuring businesses regarding the continuity of the multi-currency system. This has since been confirmed through Finance Act No. 13 of 2023.

As a result of these developments, the Group re-evaluated its functional currency in accordance with IAS 21 (The Effects of Changes in Foreign Exchange Rates).

In assessing functional currency for the Companies, the following factors were considered:  $\frac{1}{2} \sum_{i=1}^{n} \frac{1}{2} \sum_{i$ 

- (i) the currency that mainly influences sales prices for goods and services (the currency in which sales prices for goods and services are denominated and settled),
- (ii) the currency which influences labour, material, and other costs of providing goods and services.
- (iii) the currency in which funds from financing activities are generated, and
- (iv) the currency in which receipts from operating activities are usually retained.

Based on the above factors, the businesses concluded that there has been a change in the functional currency from Zimbabwe Gold (ZWG) to United States Dollars (USD) with effect from 1 August 2024. Consequently thereto, the Group also changed its presentation currency to (USD).

However, the Reserve Bank of Zimbabwe (RBZ) through the Monetary Policy Statement (MPS) issued on 6 February 2025 mandated all entities to adopt a common presentation currency, ZWG, for reporting purposes, with effect from the pronouncement date, including for the 2024 audited Financial Statements. The Group then adopted (ZWG) as its presentation currency from (USD), to comply the Group has published special purpose Financial Statements separately.

## 2.3 Introduction of a new currency, the Zimbabwe Gold (ZWG)

With effect from 5 April 2024, the Reserve Bank of Zimbabwe introduced a new currency called Zimbabwe Gold (ZWG). The implementation of the new currency was in such a way that all current Zimbabwe dollar balances were then converted into the new currency. The swap rate was guided by the closing interbank exchange rate and the price of gold as at 5 April 2024. The swap rate was used to make legitimate conversions of all ZWL deposits in the banking sector; all ZWL loans and advances made by the sector; all outstanding auction allotments; all export surrender obligations; all prices of goods and services in ZWL; and any other ZWL denominated obligations. As a result of these developments, the Group re-evaluated its functional currency in accordance with IAS 21 (The Effects of Changes in Foreign Exchange Rates) and concluded that its functional currency remained Zimbabwe Gold (ZWG) as at the date of the introduction of the new currency.

#### 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

#### 2.3 Introduction of a new currency, the Zimbabwe Gold (ZWG) (continued)

## Exchange rates used on functional currency migration to ZWG

For the period to 5 April 2024, the Group applied the Willing Buyer Willing Seller rate, as published by the Reserve Bank of Zimbabwe. After the introduction of the ZWG and a refined Willing Buyer Willing Seller foreign currency auction, the Group then adopted the Reserve Bank interbank rate from 8 April 2024 onwards.

The following exchange rates were used to convert the inflation adjusted transactions and balances to ZWG for the respective periods as at 5 April 2024.

| Posted and a     | rate (ZWL<br>translated to |

### 2.4 Conversion process to ZWG functional currency

## Determination of Hyperinflation numbers for the period to 5 April 2024 and prior years comparatives.

IAS 29 mandates that Financial Statements in hyperinflationary economies should be presented in the currency's current measuring unit as at the balance sheet date, with corresponding figures from previous periods adjusted similar. Previously, the Group used conversion factors from the CPI prepared by ZIMSTAT until 31 January 2023. On 31 March 2023, the government introduced a new inflation rate measurement method, leading ZIMSTAT to stop reporting ZWL inflation and CPI figures, in favor of blended CPI figures. This change posed a challenge as the Group relied on ZWL CPI for reporting hyperinflated historical figures.

To address this, the Group applied guidance issued by the Institute of Chartered Accountants Zimbabwe (ICAZ) that complied with IFRS in determining hyperinflation indices. They established a strong correlation between the movement in the Total Consumption Poverty Line (TCPL) and the officially published CPI from January 2019 to January 2022. Consequently, the Group estimated CPI by adjusting the last published CPI based on the monthly movement of the TCPL from February to 31 December 2023.

Determination of hyperinflation numbers for the period to 5 April 2024 and prior years comparatives.

The conversion factors used to restate the financial information as of 31 December 2023 are as follows;

|                  |         | Adjustment |
|------------------|---------|------------|
| Dates            | CPI     | Factor     |
| 5 April 2024     | 596,950 | 1          |
| 31 December 2023 | 65,703  | 9.09       |

## Conversion of ZWG numbers to \$USD functional currency

The Group transitioned its reporting currency from ZWG to USD, following the restatement of its historical Financial Statements in line with IAS 29, "Financial Reporting in Hyperinflationary Economies" as described above. According to IAS 21, "The Effects of Changes in Foreign Exchange Rates", entities operating in hyperinflationary economies must translate their previously reported inflation-adjusted financial statement using the exchange rate at the last reporting date when changing their functional currency.

## Exchange rates used on the conversion of prior year balances.

IAS 21 requires determining the functional currency based on the economic environment. Due to the difference in exchange rates used to restate comparative, a "foreign exchange impact of translating to functional currency" arises through other comprehensive income.

The Group applied the interbank rate, as published by the Reserve Bank of Zimbabwe, as its spot rate as follows:

| Period Ending    | Exchange<br>Rate |              |
|------------------|------------------|--------------|
| 31 July 2024     | 13.786           | (ZWG to USD) |
| 31 December 2023 | 6104             | (ZWL to USD) |
| 31 December 2022 | 671              | (ZWL to USD) |

## Cautionary note on use of financial information

The Directors advise users to exercise caution when analysing the financial results due to the impacts on the financial performance of the fluctuations and disparities in exchange rates and rapid inflation. These disparities impact the reliability of the financial information, as the current year's performance comprises a mix of inflation-adjusted data and USD transactions, while comparisons with previous years are based on inflation adjusted data translated using closing exchange rates. Whilst the conversion of the inflation-adjusted ZWL figures into USD was mathematically accurate, the resultant financial information may not accurately reflect the underlying business performance.

## 2.5 Foreign currency translation

Foreign exchange gains and losses that relate to foreign currency denominated transactions and balances are presented in the profit or loss within "other gains/ losses".

#### 15 **GOING CONCERN**

The Group has recognised a net loss after tax of ZWG 183 405 016 for the year ended 31 December 2024 against a net profit after tax of ZWG 234 116 108 (Restated) in the previous year. The total current assets exceeded current liabilities by ZWC 328 723 062. In Prior year, current assets exceeded current liabilities by ZWC 358 441 471 (Restated).

The Reserve Bank of Zimbabwe (RBZ) approved and registered the Group's blocked funds amounting to USD16.3 million in respect of outstanding dividends and goods consistent with the blocked funds guidelines provided in the Exchange Control Directive RU28 dated 21 February 2019 and Exchange Control Circular No. 8 of 24 July 2019. In 2021, The Treasury assumed the liability from RBZ in relation to the blocked funds. The Treasury is currently working on the appropriate instruments to facilitate settlement of the registered blocked funds which were listed as approved blocked funds under Annex 1 of the Finance Act(no. 7) of 2021 (gazetted on 21 December 2021). Following the currency change on 5 April 2024 from ZWL to ZWG, the outstanding blocked funds were converted to ZWG at a rate of ZWG1: ZWL 2499. On 1 August 2024 the functional currency was changed from ZWG to USD and the outstanding blocked funds were converted to USD at a rate of USD1: ZWG 13.79.

The Directors believe that the Treasury will honour its commitment to settle the Group's outstanding foreign liabilities at a rate of ZWL1: USD1 registered as "blocked funds". In the event that Treasury will not honour its commitment, the majority shareholder, British American Tobacco International Holdings (UK) Limited, has further confirmed that it is the present intention to provide continuing financial support which also indicated that it will not demand repayment of amounts owed by the Group until such a time that it is restored to solvency. The ultimate parent company, British American Tobacco plc will offer financial support to BAT Zimbabwe since the majority of the foreign outstanding obligations are owed to related companies within the BAT Group.

The Directors are confident that the Group has adequate resources to continue in operational existence for the foreseeable future and is expected to continue to generate profits.

The consolidated Financial Statements have been prepared on a going concern basis, which assumes that the Group will be able to settle all its outstanding obligations.

### **SUBSEQUENT EVENTS**

The Reserve Bank of Zimbabwe through the Monetary Policy Statement (MPS) issued on 6 February 2025 mandated all entities to adopt a common presentation currency, ZWG, for reporting purposes, with effect from the pronouncement date, including for the 2024 audited Financial Statements. These special purpose Financial Statements are meant to comply with this pronouncement.

## **AUDITOR'S STATEMENT**

17

These special purpose Financial Statements have been prepared, with the objective of satisfying the Securities and Exchange Commission of Zimbabwe Notice SECZ070325. They have not been prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board and therefore reading the special purpose Financial Statements and the Auditor's Report thereon, is not a substitute for reading the audited general purpose consolidated Financial Statements and the Auditor's Report thereon.

The general purpose consolidated Financial Statements of the Group, which comply with the requirements of IFRS® Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards) were approved by the Directors on 23 June 2025 and a qualified audit opinion was issued on the same day. The qualification was in respect of non-compliance with International accounting Standard 21, The Effects of Changes in Foreign Exchange Rates in the current and prior years, and IAS 8, Accounting policies, Changes in Accounting Estimates and Errors in respect of the accounting for foreign creditors registered as blocked funds as described in note 15.

These are available for inspection at the Company's registered office, and Company website <u>www.batzimbabwe.com.</u>
